# Continuous Awareness Campaign

**Only 1 Incident per year in 2021 and 2022**

AERO-CLUB SAAR e.V.

Marpingen Flight Safety Days 5th/6th November 2022

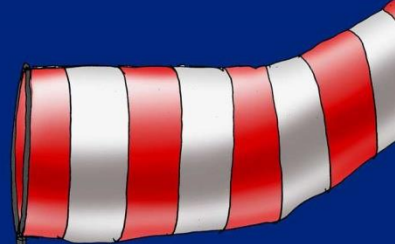

**Luftsport  
beflügelt !**

- Former LTB-rules:**
- pilot/owner maintenance accepted for SEPs, TMG, SPLs
  - release to service by qualified staff (Werkstattleiter-licence)

- EASA-rules: (2014/2019)**
- pilot/owner maintenance accepted for SEPs, TMGs and SPLs
  - **no permit to release for qualif. stuff**
    - => external stuff (expensive) for release
    - => min L2-licence needed
    - => LBA-certified mainten.shop needed

- Solution:**
- **Certified maintenance shop & stuff**
    - Technik-Zentrum-Marpingen ✓
    - part of CAO.DE.0057 ✓
    - qualified stuff ✓
    - more qualification of stuff (L2-licence) during 2023 (training by ATT)
    - => same solution as former LTB
    - => actually used by 40 flight-objects
    - => later also for other „members“

**Luftsport  
beflügelt !**

**ICAO**    **Global aviation safety program**  
            ↳ **Safety Management plan**

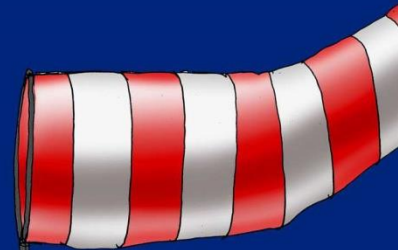

**EASA**    **European Aviation safety program**  
Eurocontrol    ↳ **Safety Management plan**

**LBA**    **German Aviation safety program**  
            ↳ **Safety Management plan**  
                    **Part - Airsports**

**AeCS**    **Regional „Air sports“ safety program**  
            ↳ **Safety Management plan**

Next steps:

- => **Flight Safety Handbook**  
Systeme description, safety policy and objectives,  
risk management,  
safety training moduls for aero-clubs
- => **IT-platform „vereinsflieger“**  
for „Flight Safety“ registration, trainings...
